

# DASHBOARD & ACCOUNT SETTING

The screenshot displays the IBM Cloud dashboard interface. At the top, a dark navigation bar includes the IBM Cloud logo, a search bar, and links for Catalog, Manage, and the user's account (Melyazhagan M's Acco...). Below this, the main dashboard area is titled 'Untitled' and features a 'Create resource' button. A 'For you' section offers six quick-start options: 'Build' (Explore IBM Cloud with this selection of easy starter tutorials and services), 'Use Knowledge Studio' (Use custom machine learning models to identify entities and relationships that are unique to your industry in unstructured text. Recommended, 1 min), 'Set up your IBM Cloud account' (Learn how to set up your IBM Cloud account, manage your account settings, organize resources, and control access to those resources. Getting started, 10 min), 'Explore tutorials' (Try out a variety of tutorials to get you started with IBM Cloud or help you with more complex scenarios. Getting started, 10 min), 'Use Cloudant' (Cloudant is a managed NoSQL document database that offers serverless scaling of throughput, capacity, and storage. Recommended, 2 min), and 'Build a Virtual Private Cloud (VPC)' (Upgrade to a paid account to create your own protected space in the IBM Cloud. Getting started, 7 min). Below this, a 'News' section lists articles like 'TrustRadius Best Software: Five IBM Offerings to Make the List' and 'Announcing IBM Cloud Pak for Network Automation Version 2.4'. To the right, there are sections for 'Recent support cases', 'Planned maintenance', and 'IBM Cloud status'.
